### **MESSAGE**

On the occasion of the 5<sup>th</sup> convocation of the Indira Gandhi Delhi Technical University of Women, Delhi, I feel immensely proud and delighted to congratulate the young graduates and their parents. I also appreciate the efforts of dedicated faculty and staff members who are committed to produce technically empowered female engineers.

In this global era of Advanced Technology, Women Technocrats and Managers have an equal role in a country's growth and development. I am certain that female graduates of IGDTUW will exhibit distinct and ethical performance in the professional world and contribute to nation's progress.

Hereupon, I would like to remind my dear students about a famous saying of renowned famous physicist and mathematician Sir Issac Newton, who once said, "if I have seen future, it is by standing upon the shoulders of giants." He meant to mention the futuristic responsibility of scientific and technical predecessors. I would like you to reflect on the accomplishments of previous achievers and strive to leave outstanding legacies for future generations. I also believe that the knowledge achieved during the academic period will be used in the appropriate direction, and all the students will positively contribute to our society's development.

Once again I bless all the young graduates and wish them success in their future endeavours.

**(R. Alice Vaz)**  
**Commissioner-cum-Secretary**
